

## **Tom Goodman, CISSP**

Tom Goodman is the Program Manager for Cyber Mission Assurance Systems with General Dynamics C4 Systems. In this position, Mr. Goodman is responsible for leading all business efforts supporting DoD and Intelligence Community operational cyber requirements.

Prior to joining General Dynamics C4 Systems, Mr. Goodman was the Technical Director for Intelligence and National Security Programs for CA Technologies, Inc. While at CA Technologies, Mr. Goodman was responsible for leading CA Technologies' efforts to support national level programs throughout the intelligence community.

Mr. Goodman holds an active Top Secret security clearance and has held senior technical and business development positions in a variety of companies over the past 30 years. Some of his past accomplishments include the implementation of facial recognition technologies for use by law enforcement personnel in support of the 2002 Winter Olympic Games; design and implementation of secure mobile enterprise applications for the White House Communications Agency and the United States Coast Guard; and implementation of a managed care support application for the Department of Defense TRICARE program.

Mr. Goodman is a Certified Information Systems Security Professional (CISSP) and holds a concentration as an Information Systems Security Management Professional (ISSMP). Mr. Goodman is also certified as an InfoSec Operations Analyst with the Department of Defense.
