DI2E Plugfest is the only event for the defense community that actively demonstrates the evolving Defense Intelligence Information Enterprise. The Plugfest is a solutions-oriented day where Government attendees can see for themselves how your solutions align to the DI2E vision and provide interoperable and reusable capabilities in the context of the DI2E Framework.

DI2E Plugfest provides a cloud-based environment of networked, interoperable and reusable components, where vendors are able to deploy and show their solutions to provide flexible, agile and data-driven capabilities to Warfighters.

The Top 5 Reasons Companies Sponsor DI2E Plugfest

1. Enhanced Credibility

DI2E Plugfest is one of the few opportunities in today's limited conference climate where you can connect with customers and prospects to build trust and establish rapport. By getting involved as a sponsor you are seen as dependable and supportive participant committed to the DI2E vision. Participating in Plugfest is important, but standing out in the crowd by being a sponsor will highlight you and your business with a captive audience.

2. Highly Targeted Marketing

The audience at Plugfest are the people you want to reach. They are existing customers and business partners as well as potential new customers and business partners. The marketing messages leading up to Plugfest go out to a wide distribution of parties from across the country engaged in ISR and general defense business.

3. Leveraged Presence

The majority of people who attend Plugfest are active participants in the ISR business, will be well connected with others with similar interests. A good showing in front of them means the real chance to be recommended to their connections as well.

4. Community Exposure

DI2E Plugfest marketing efforts make sure the event is well attended and generally successful. When you decide to sponsor, your brand automatically gets the benefit of being promoted throughout the process. Combined with your organic efforts this provides extended, integrated exposure and visibility in the DoD intelligence and ISR market.

5. Brand Awareness & Recognition

Logo placement in a variety of places such as flyers, e-mail, brochures, websites, PR campaigns, signage, etc. will add to increase brand awareness and associate your brand with the event. Being recognized as a sponsor will communicate that you support and value the audience.

Who Attends?

The DI2E Plugfest is being coordinated with the DI2E Enterprise Focus Team (EFT), which is working to coordinate the Plugfest with the DI2E Teams week meetings.

The entire DI2E community will participate in Plugfest this year. Including the Integration Board, The ARchitecture Framework Action group, the Implementation Action Group, The International Partner Action Group and the Seven DCGS programs of record.

In 2013 the majority of attendees were from Government. There were 52 government organizations in attendance, at a time when Government and industry were still coming to grips with the effects of the 2013 sequestration action. These organizations included all of the key leaders of the Defense intelligence enterprise including OUSD(I), OUSD (AT&L), DNI, DIA, NRO and all of the military services who are building the ISR systems of tomorrow. You can expect an even better turnout in 2014 as there is pent-up demand for meaningful interaction.

SELECT FROM AVAILABLE SPONSORSHIPS
